

## Product Updates to Reflect New Names

The first round of updates to reflect Aqua by Watermark's new name, Watermark Outcomes Assessment Projects, are coming **August 10th**. These updates are largely visual, and are focused on introducing the new descriptive name for the product, reinforcing its home within Watermark Suite, and providing a more consistent experience to those who use multiple Watermark products.

The screenshot shows the 'My Projects: Engage University' dashboard. It features two project cards. The first card, 'CRITICAL THINKING 2019-20', is published on 9/18/2019 and has 1 outcome measured (Critical Thinking). It shows 1 published assignment and 0 drafts. Evaluation progress is shown for 2 scores: 1st (66% completed, 2 evaluated of 3 submitted) and 2nd (0% completed, 0 evaluated of 1 submitted). The second card, 'CRITICAL THINKING GEN ED ASSESSMENT 2019-2020 RENE', is published on 6/25/2019 and has 2 outcomes measured (Critical Thinking, Intellectual and practical skills). It shows 2 published assignments and 0 drafts. Evaluation progress is shown for 0 scores: 0% completed (0 evaluated of 2 submitted). Both cards show 2 complete and 1 in-progress evaluations.

Please find the full details below on what's changing and what's not. You can also read more [here](#) about the reason behind changing product names, and may find this [sample email](#) helpful as you consider how to best introduce this topic to your stakeholders.

## What's Changing in August

### Watermark App Bar and New Product Logo

Designed to provide consistency and context for users across the Watermark Suite, the Watermark App Bar includes the new product logo to inform the user which area of the

## Product Updates to Reflect New Names

Watermark Suite they're actively working in, and standardizes the path to logging in and out, navigating to other Watermark products, and accessing help resources and information about Watermark.

*The old product header and navigation bar*

*The new product header with the Watermark app bar above the updated navigation bar.*

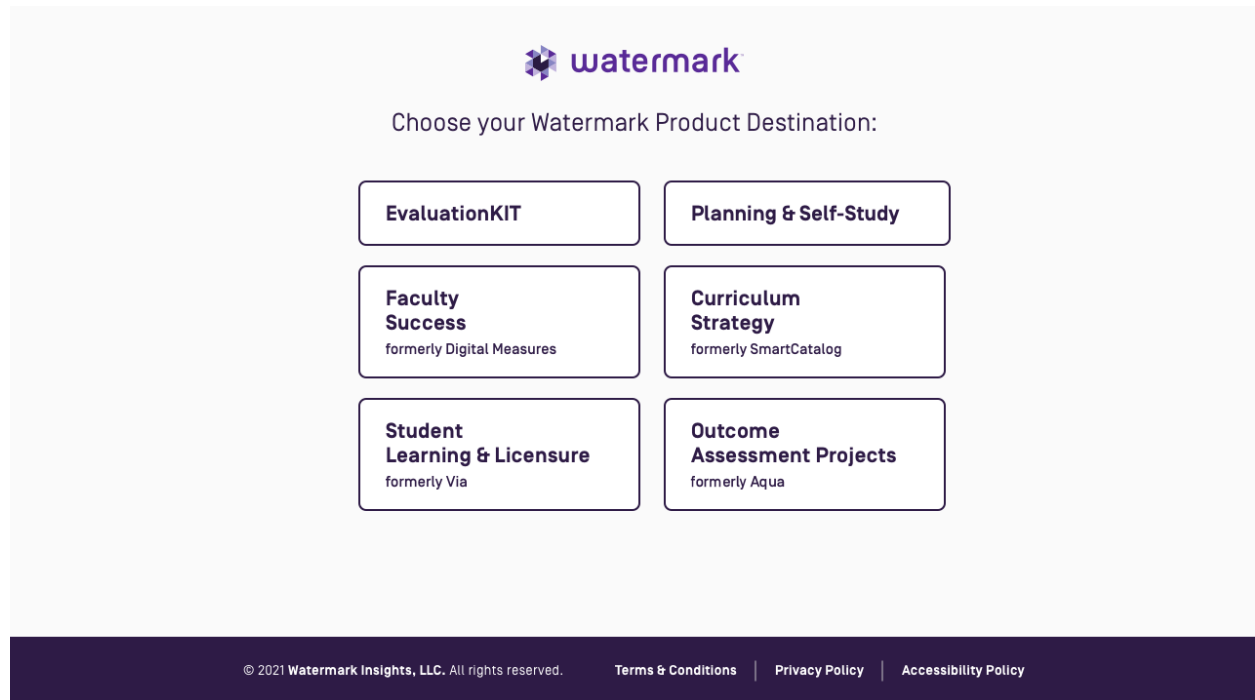

In the context of Watermark Outcomes Assessment Projects (formerly Aqua), the App Bar updates the product logo on the upper left, with the "formerly Aqua" language present to provide visual confirmation that it's the same product. For assessment coordinators, the My Organization menu will be renamed as Admin Tools and will be located just below the app bar. The links to help resources will still be present on the top right. You will also now see the name of your institution and, if applicable, the switcher on the top right that allows you to toggle between products and/or sign out of the account.

Users will continue to use the area below the App Bar to access their work, including their ability to set up projects, evaluations to be completed, and reports.

## Product Names Listed in Watermark Navigator

For those using Watermark Navigator as a single front door to multiple Watermark solutions, you'll see the new product names reflected in both the login experience and the app switcher.

## What's Coming Later

Over the coming months you can expect to see us continue to transition to the Watermark Outcomes Assessment Projects name and refine its look and feel to increase consistency and accessibility across the Watermark Suite. Here are some examples of things we have our eye on in the near term:

- Text references to the product and its modules, to replace Aqua with Outcomes Assessment Projects, as appropriate
- The product name for Aqua on the login.taskstream.com product selection landing page
- The Watermark branding elements in email notifications sent from the system
- The Watermark branding elements in the PDF export
- Support materials in the Help Center

We will keep you informed about each of these changes and its details, just as we do for all product updates.

## What's Not Changing

URLs will not be changing at this time. We are exploring ways to have new and old URLs work when we eventually pursue this change in the future, to minimize disruption to you and your users. We will also provide substantial lead time and resources to support you as you prepare for such a change.
